PROFESSIONAL SUMMARY

Driven and versatile Full Stack Developer with a strong experience in front-end and back-end technologies, coupled with a growing specialization in cybersecurity. Certified by Life Choices Academy as the Overall Top Performer and recognized for excellence in both development and security practices. Skilled in modern frameworks such as Vue.js, Node.js, and Express.js, with hands-on experience in building responsive applications, integrating APIs, and implementing secure coding standards. Adept at collaborating in agile teams, solving complex problems, and communicating effectively with stakeholders. Currently seeking an entry-level role to contribute technical expertise and continue growing in the fields of software development and information security.
